3. Service description

UnrealEdit provides online features for editing/processing user content (for example, images) using algorithms, including AI tools (the "Features"). We may update or change functionality, interface, and limits from time to time.

4. Carrier billing (MVAS / Direct Carrier Billing)

4.1. Payment for access to the Service is made via your mobile network operator (MVAS / Direct Carrier Billing): subscription fees are charged to your mobile balance (prepaid) or included in your mobile bill (postpaid).

4.2. The mobile operator and/or its technical/payment platform performs:

- subscription confirmation (including OTP delivery),
- subscription charging,
- displaying charges in your billing details (the displayed name may vary depending on operator/platform rules).

4.3. By subscribing, you consent to:

- receiving service and billing-related messages (including OTP and, where applicable, unsubscribe/status messages),
- processing of your phone number and subscription status for activation, access provision, and support,
- exchanging technical statuses (subscribe/cancel/successful and failed charges) within the required chain (operator/platform/Company) to the extent necessary to provide the Service.

5. How subscription activation works (phone number + OTP)

5.1. To activate a subscription, you:

- enter your mobile number on the subscription page,
- receive a verification code (OTP),
- enter the OTP and confirm activation.

5.2. Entering the OTP confirms that you authorize subscription activation, accept recurring charges, and understand that the subscription is recurring (auto-renewable) unless cancelled.

6. Pricing, free trial, and auto-renewal

6.1. The subscription is recurring (auto-renewable): unless you cancel, charges will be repeated in accordance with the operator/platform rules and the applicable tariff.

6.2. Prices depend on your operator:

- Mobily: 3 SAR, no free period
- Virgin Mobile Saudi Arabia: 3 days free trial, then 1.5 SAR

6.3. If a free trial applies and you do not cancel before the trial ends, charges will start after the trial at the stated price.

6.4. Taxes (including VAT), where applicable, may be included in the price or applied in accordance with operator/platform rules and applicable law.

7. Subscription cancellation and stopping charges

7.1. You may cancel your subscription at any time. After cancellation, further charges stop in accordance with the operator/platform rules.

7.2. Cancellation methods depend on the operator and may include sending an unsubscribe keyword to the operator shortcode:

- Virgin Mobile: send U92 to 300346
- Mobily: send U321 to 600473

7.3. In addition, cancellation may be available via the operator's menu/app or via the operator's customer support (where provided by the operator).

7.4. If you cannot cancel using the standard method, please contact the Company support at support@adsmobileou.com (include your phone number in international format and your operator).

8. Refunds and disputed charges

8.1. If you believe a charge was made in error or the Service was not provided properly, contact support at support@adsmobileou.com within 14 days of the charge date and include:
